

Balm Balm

100% organic skincare

Glenda Taylor
Founder of Balm Balm

About Balm Balm

The Balm Balm range is a unique collection of totally pure, super-effective waterless Skincare Balms created by hand to exacting Soil Association standards.

The company was founded in 2005 by Glenda Taylor and is built on her years of experience as an aromatherapist, perfumier and natural formulation consultant. Her aim was to create an affordable, 100% organic Skincare range for the whole body, perfect for even the most sensitive of skins, and to leave as Green a footprint as possible.

Today the range continues to be lovingly made by hand with every finished product certified 100% organic and 100% natural; free from Parabens, SLSs and Preservatives and with all ingredients clearly listed and BUAV approved.

The range has grown to include multi-tasking Balms for the whole body; Bath and Body Oils for babies and grown ups; Eau de Parfums that can be used individually or layered; organic Essential Oils and a Facial Skincare range for all skin types.

Therapeutic, gentle, versatile and as organic as humanly possible. Balm Balm is absolute natural goodness for your skin.

Why Balms?

All our Balms are made from Shea Butter, Beeswax, Calendula, Sunflower and Jojoba Oils. This base, which is our Fragrance Free Balm, is suitable for moisturising any part of your body and is so gentle that it can even be used on new born babies.

People suffering from eczema and psoriasis often experience great benefits from our Fragrance Free Balms purely because they contain no chemicals whatsoever. Apart from moisturising your skin beautifully they allow your skin to return to its natural state, to breathe and just to be.

You might find the texture of Balm Balm a little unusual to begin with. Creams that are applied to the face usually have water in them. Water is fine, but in order to preserve a product that contains water, petrochemicals are used. We haven't used any water which means that we don't have to use any petrochemicals, which means that all our products are really good for you!

This results in a 'balm' like texture, thus the name Balm Balm. We simply tweak the ratio of waxes to oils to make our products 'harder' for our Lip Balms or 'softer' for our Face Balms.

Lip Balms

Lip Balm is one beauty product which cannot help but be ingested, yet the market has been dominated by petroleum jelly based products – and who wants to eat mineral oils?

Balm Balm Lip Balms are 100% natural and made from wonderfully simple ingredients sourced from organic farmers and growers: Sunflower Seed Oil, Shea Butter, Beeswax, Aloe Vera and Calendula Oil.

Our formula is long-lasting and easily absorbed to soothe, moisturise and condition lips without needing to be constantly reapplied – leaving you free to do more interesting things with your time!

Face Balms

Some people find using a Balm instead of a Cream odd at first and worry that it may be too oily for their skin. This is simply not the case. Use only a little to begin with and as you get used to it you will be more confident in its ability to be totally absorbed by your skin, leaving it plumped-up and fresh looking. Try applying your Balm to damp skin.

Balm Balm
100% organic skincare

All Over Balms

A kaleidoscope of aroma-therapeutic blends, each one containing a gorgeous combination of Essential Oils infused into our marvellous Balm formulation or Carrier Oil.

Fragrance Free Baby Balm

For all your baby's needs including cradle cap, sores, dribble patches and bottoms!

100% Organic Facial Range

The Balm Balm Skincare regime is pure, simple and effective. It has been designed not to irritate or interfere with your skin's natural function. The products are incredibly gentle and light, blended from 100% organic Oils, making them suitable for the most delicate of skins.

The range includes a Coconut Cleanser, Witch Hazel Toner, Little Miracle Rosehip Serum and Hibiscus Face Mask. These products, along with our organic Muslin Cloth, work together to leave your skin feeling polished and pampered.

Little Miracle Rosehip Serum

This beautifully rich blend of organic Rosehip, Frankincense and Rose Geranium nourishes and repairs your skin, evens out tone and texture, and leaves it feeling totally rejuvenated. Hand-made from ingredients so luxuriously fine they are absorbed leaving no oiliness whatsoever.

Balm Balm Professional

Base Oils

Balm Balm organic Base Oils are wonderful for moisturising and conditioning the skin. Some are richer than others and can be mixed to achieve the texture you desire. With organic ingredients such as Borage, Sweet Almond and Rosehip, they are rich in nourishing vitamins and minerals that work to strengthen and protect the skin.

Base Oils can be used alone, or combined as 'Carriers' with our pure Essential Oils to create bespoke, fragranced, multi-purpose Bath, Body or Massage Oils that will easily and effectively penetrate and nourish the skin.

Essential Oils

Essential oils are concentrated Fragrances that have an incredible therapeutic effect and smell so beautiful that they can transport your memory to crystal images of a time or place.

As they are so concentrated, apart from in a few instances, they should be diluted before use. By combining different Essential Oils you can create infinite remedies for everyday situations. Essential Oils are at their most effective when you really love their fragrance and these differ hugely from one to another. They can be used as a single Fragrance or combined to create specific remedies.

Gifts

Aromatherapy Bath & Shower Collection

The perfect gift for someone special - or why not just for yourself?

A beautiful little box that slides open to reveal a rainbow of colour and possibilities. Expertly blended Aromatherapy Oils to cover your every need. These bijou gems should be treasured and savoured.

Fragrances

The Balm Balm Single Note Organic Eau de Parfum range is unique. Each one is certified 100% organic and 100% natural. With only a single organic Essential Oil added to Grain Alcohol, the simplicity of each Fragrance is bright, clear and distinctive.

There are seven single notes to choose from. Each has a character of its own and can be worn alone or combined to create your own very individual scent.

Frankincense Facial Range

Three wonderfully effective organic products to keep your skin feeling happy, healthy and youthful.

Frankincense is well known for its rejuvenating effect on the skin, but did you know that it is also reputed to improve deep breathing and thus improve circulation. Good circulation reflects in beautiful skin so, take a deep breath with the wonderful Frankincense Facial products and let your skin breathe too.

Soil Association

The most respected and recognised organic certification mark in the UK; Soil Association approval is your assurance of quality, purity and brand ethics.

Cruelty-Free International

The leading organisation working to end animal experiments worldwide. For over 100 years they have championed progressive, humane scientific research and cruelty-free living.

Real Beauty Manifesto

The Real Beauty Manifesto is an umbrella movement inspiring natural and organic beauty brands and organisations to unite in a shared vision of honesty and integrity.

FSC

FSC is an independent, non-governmental, not for profit organisation established to promote the responsible management of the world's forests.
